SUMMARY

MERN Stack Developer skilled in building responsive web applications using MongoDB, Express.js, React, and Node.js. Strong communicator with effective time management and problem-solving abilities. Known for adaptability and teamwork in fast-paced environments, delivering high-quality, scalable solutions.

EDUCATION

Bachelor of Technology (B.Tech) , Jawaharlal Nehru Engineering College	12/2020 - 07/2024
• Courses: COMPUTER SCIENCE ENGINEERING	
XIIth Grade , Mahatma Gandhi College	06/2016 - 06/2018
Xth Grade , V S B High School	05/2016

SKILLS

Front-End Development: HTML, CSS, Bootstrap, JavaScript, React

Back-End Development: Node.js, Express.js

Databases: MongoDB, SQL

Version Control: Git, GitHub, Postman, VS Code

Concepts: Object-Oriented Programming (OOP), RESTful APIs

EXPERIENCE

MERN Stack Developer Intern Scalefull Technologies	07/2024 - Present
<ul style="list-style-type: none">Assisted in developing full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) to streamline internal processes.Collaborated with the development team to build responsive and dynamic front-end interfaces using React and Bootstrap.Worked with MongoDB to design and implement database schemas and RESTful APIs for efficient data management.Utilized Git and GitHub for version control and collaborative project management in an agile development environment.	
Front-end Developer Intern iNeuron.ai	01/2024 - 06/2024
<ul style="list-style-type: none">Developed an E-commerce platform enabling users to browse, add products to cart, and complete the checkout process.Designed and implemented responsive user interfaces using HTML, CSS, JavaScript, and react, while collaborating with UI/UX designers.Integrated front-end components with back-end systems via APIs, working closely with back-end developers using Git for version control.	

PROJECTS

Wanderlust - Full-Stack Marketplace Application	Live link
Wanderlust is a full-stack online marketplace, similar to Airbnb, that connects property owners with travelers seeking short-term accommodations. Developed using MongoDB, Node.js, Express, and EJS, the application employs MVC architecture to ensure organized, scalable, and readable code for efficient data handling and user interaction.	
Movie Guide App	Live link
Developed a responsive movie search application using HTML, CSS, and JavaScript, featuring a dynamic search bar for querying movie details and rendering relevant information with images on the results page.	
Recipe App	Live link
Developed an interactive recipe search app using HTML, CSS, and JavaScript, where users can search for recipes and view individual recipe details. Each recipe card includes a button that reveals ingredients and instructions when clicked.	

CERTIFICATIONS

MERN Stack Developer Certificate Issued by: Wisdom Sprouts	06/2024 - Present
MERN Stack Developer Certificate Issued by: Apna College	11/2023 - 05/2024
